PROFILE

Product manager and product owner with 13 years of product ownership in regulated industries, including fintech, insurance, B2B SaaS, defence AI and public-sector analytics. I run continuous discovery, turn strategy and user needs into user stories and a prioritised roadmap, and lead cross-functional teams through agile sprint planning and delivery (Scrum, Kanban, SAFe). I have built AI and LLM-based products in production and prototyped with AI-native tooling daily.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024-05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Led AI and data platform delivery for the FCAS programme: 15+ engineers and data scientists through Scrum in Jira and Confluence, GitOps rollout with ArgoCD reducing deployment time from days to 30 minutes.
- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.

Product Manager, Bundesagentur für Arbeit, Nuremberg / Remote | 05/2023-07/2024

Public sector. National labour-market analytics platform for policymakers and researchers.

- Introduced Dagster and dbt to the ETL pipeline, saving almost 75% of time per data update; migrated a bare-metal system fully into containers.
- Integrated test automation into the Jenkins CI/CD pipeline and freed several QA hours every week.

Product Owner, CLINET Platforms, Berlin | 01/2023-07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut an undeliverable roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital KIS workflows: digital anamnesis time dropped from 30 minutes to 5.

Product Manager, EMIL Group, Berlin | 04/2022-12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production; cut time-to-market for a new insurance product from months to under a week.

Product Owner Integration Team, Scheidt & Bachmann, Mönchengladbach | 09/2021-03/2022

Retail and payments. POS and forecourt systems in a full SAFe setup with agile release trains and PI planning.

- Moved research results into production across a matrix organisation.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021-06/2021

- Government secure data platform. Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.
