§ BEARING

Hands-on Product Manager and Product Owner with nearly ten years of experience translating complex operational workflows into scalable software systems across regulated B2B environments. Background spans AI data platforms, public analytics infrastructure, InsurTech SaaS, and mobile healthcare applications. Comfortable driving the full product lifecycle from vision and requirements through delivery, adoption, and continuous improvement. Technically fluent across modern software stacks and AI-native tooling, with a track record of unblocking delivery, rebuilding sprint discipline, and aligning cross-functional stakeholders around a clear product direction.

§ CORE STRENGTHS

- End-to-end lifecycle ownership from charter to post-deployment measurement
- Translating regulated operational workflows into dev-ready user stories and acceptance criteria
- Cross-functional stakeholder alignment across business, engineering, QA, and compliance
- Sprint discipline recovery and backlog management under delivery pressure
- Technical fluency sufficient to unblock engineers and navigate infrastructure decisions
- AI-native product execution and rapid prototyping
- Risk-first product discovery under ambiguity
- Workshop facilitation with technical and non-technical audiences
- Founder-level pragmatism: low ego, high agency, accountable to outcomes

§ PROFESSIONAL EXPERIENCE

Rohde & Schwarz 2024, 2025

Product Manager, AI Data Transformation

- Delivered autonomous feature sets end-to-end: user stories, acceptance criteria, implementation support, testing, and GitOps-based rollout
- Led cross-functional team including architect, data scientists, backend and frontend engineers, and QA within a multinational European defence programme
- Improved data quality via filtering, tagging, reproducible transformation pipelines, and audit trails with full data provenance
- Reduced deployment times from several days to 20–40 minutes by introducing GitOps with ArgoCD
- Unblocked infrastructure-level OpenShift issues independently; delivered in one week a feature requested from engineers for over a year
- Responsible for data transparency and auditability with multinational stakeholders; supported SafeAI and ExplainableAI evaluation concepts

Federal Employment Agency (Bundesagentur für Arbeit) 2023, 2024

Product Manager, Public Data Analytics

- Delivered new features including labour shortage analytics, flexible regional comparison, and modernised admin tooling across an active public-facing analytics platform
- Designed interactive dashboards, community features, and reporting modules aligned to stakeholder requirements
- Introduced Dagster for automated ETL and indicator generation; standardised CI/CD with full test integration at build time
- Migrated legacy systems to Kubernetes and managed major system upgrades with no service interruption
- Served as Deputy IT Security Officer with focus on compliance, governance, and data lineage
- Collaborated with regional government stakeholders, data scientists, and engineering teams across distributed locations

Emil Group 2022

Product Manager, InsurTech SaaS Platform

- Delivered modules across product configuration, pricing, underwriting, policy issuance, document management, and workflow automation on a B2B InsurTech platform
- Designed and delivered a Claims Center module from concept to production rollout

- Re-established sprint discipline and delivery stability; split a bloated 17-person team into smaller, effective Scrum units with clear ownership and deputy structures
- Reintroduced velocity tracking and structured refinement practices lost under delivery pressure
- Regained client trust in a prototype-stage environment through structured communication and weekly product workshops
- Reduced senior developer attrition from near-total to a single departure

CLINET Platforms 2021, 2022

Product Owner, Mobile Healthcare App

- Delivered core patient-facing flows: digital anamnesis, meal and therapy plans, transport coordination, chat, and document storage across iOS and Android
- Integrated CGM interface into hospital information system workflows, navigating undocumented legacy APIs
- Led a small team under tight deadlines with strict prioritisation of highest-leverage features
- Built stakeholder trust through transparent communication of technical complexity and realistic delivery commitments

§ FOUNDER & EARLY-STAGE EXPERIENCE

Qcrypt AG 2016, 2018

Product Owner & Deputy IT Security Officer

- Owned product architecture for backup, restore, checkpoint, and data-encryption features on a quantum-secure OTP encryption product
- Served as deputy IT security officer; represented the product to enterprise and institutional prospects
- Delivered setup experience requiring under two minutes with no technical knowledge required from end users

Kvitt Payment Solutions 2013, 2018

Founder & CFO

- Founded and built a group-based P2P payments product on a P2P backbone, including PSP integration, full UX/UI design, and mobile app prototype
- Later acquired and operated by Sparkasse

Smart Soil Technologies 2016, 2021

Co-Founder, CDO, CFO, Head of HR (various phases)

- Established digital tooling, financial planning, and investor relations for a nanotechnology vertical farming startup across multiple funding phases
