§ BEARING

Hands-on Product Manager and Product Owner with nearly ten years of experience translating complex operational workflows into scalable software systems. Background spans B2B SaaS, regulated environments, AI systems, and founder-level company building. Comfortable in ambiguity and high-pressure delivery, where requirements are incomplete, priorities shift, and teams need clarity to move. Strong track record of re-establishing sprint discipline, unblocking delivery, and holding the stakeholder interface across business, engineering, and end users. AI-native by practice, low-ego by disposition.

§ CORE STRENGTHS

- Backlog triage and prioritisation under incomplete information
- Sprint discipline: refinement, planning, review moderation
- Cross-functional alignment across engineering, business, and users
- Technical fluency sufficient for meaningful architecture discussions
- Stakeholder communication, internal and external
- Product operations design: as much process as needed, no more
- AI-native tooling applied to daily PM work
- Discovery pragmatism: knowing when research is done
- Founder-level ownership and self-organisation

§ PROFESSIONAL EXPERIENCE

Rohde & Schwarz 2024, 2025

Product Manager, AI Data Transformation

- Led cross-functional team (architect, data scientists, backend, frontend, QA) on a central AI data management platform for the FCAS defence programme
- Delivered autonomous feature sets end-to-end: user stories, acceptance criteria, implementation support, testing, GitOps rollout
- Unblocked an infrastructure-level OpenShift issue independently; delivered in one week a feature the project lead had been requesting from engineers for over a year
- Reduced deployment times from several days to 20–40 minutes by introducing GitOps with ArgoCD
- Responsible for data provenance, transformation transparency, and auditability with multinational stakeholders

Federal Employment Agency (Bundesagentur für Arbeit) 2023, 2024

Product Manager, Public Data Analytics

- Owned the Arbeitsmarktmonitor analytics platform for regional labour market and demographic data
- Delivered labour shortage analytics, flexible regional comparison, and modernised admin tooling
- Introduced Dagster for automated ETL and indicator generation; standardised CI/CD with full test integration
- Migrated legacy systems to Kubernetes and managed major system upgrades
- Served as Deputy IT Security Officer with focus on compliance, governance, and data lineage

Emil Group 2022, 2022

Product Manager, InsurTech SaaS Platform

- Re-established sprint discipline and delivery stability on a B2B InsurTech platform connecting insurers, reinsurers, MGAs, brokers, and underwriters
- Split a bloated 17-person team into smaller, effective Scrum units; introduced ownership and deputy concepts
- Reintroduced velocity tracking and structured refinement practices lost under delivery pressure
- Designed and delivered a Claims Center module from concept to production rollout

- Regained client trust through structured communication and weekly product workshops; reduced senior developer attrition from near-total to a single departure

CLINET Platforms 2021, 2022

Product Owner, Mobile Healthcare App

- Delivered a mobile-first pilot app for hospitals covering digital anamnesis, meal and therapy plans, transport, chat, and patient document storage
- Integrated CGM interface into hospital information system workflows
- Managed stakeholder trust through transparent communication of technical complexity (legacy APIs, external databases)

§ FOUNDER & EARLY-STAGE EXPERIENCE

Kvitt Payment Solutions 2013, 2018

Founder & CFO

- Built a group-based P2P payment product on a P2P backbone: PSP integration, full UX/UI design, mobile app prototype
- Later acquired and operated by Sparkasse

Qcrypt AG 2016, 2018

Product Owner & Co-Founder

- Owned product architecture for quantum-secure encryption based on one-time-pad keys and true random number generator hardware; setup target of under two minutes with no technical knowledge required
- Served as deputy IT security officer

Smart Soil Technologies 2016, 2021

Co-Founder, CDO, CFO & Head of HR

- Built digital tooling, financial and investment planning, and ERP introduction for an AgTech vertical farming startup
