

Philipp Hilbert. *Workflow standardiser who turns project patterns into products.*

Positioning, hands-on Product Manager with ten years building configurable B2B SaaS platforms, now applying that depth to GovTech rule-engine productisation.

§ BEARING

Product Manager with nearly ten years of experience building configurable B2B SaaS platforms across InsurTech, public-sector analytics, and regulated defence infrastructure. Consistent track record of translating recurring project patterns into documented, reusable modules – from Claims Center design at Emil Group to standardised ETL pipelines at the Bundesagentur für Arbeit. Comfortable reading rule-driven and configuration-heavy systems quickly, writing acceptance criteria engineers trust, and anchoring product decisions in measurable delivery outcomes. AI-native operator with strong stakeholder communication in German and English.

§ CORE STRENGTHS

- Extracting reusable module abstractions from project implementations
- KPI-driven productisation: reuse rate, implementation time, rollout quality
- Low-code and configuration-driven platform product ownership
- Cross-functional alignment across delivery, sales, and engineering stakeholders
- Structured discovery and prioritisation under roadmap constraints
- REST API and integration-surface fluency
- Regulated environment delivery (defence, public sector, health insurance)
- Sprint discipline recovery and backlog restructuring
- German-native communication with institutional and GovTech clients

§ PROFESSIONAL EXPERIENCE

Emil Group 2022

Product Manager, InsurTech SaaS Platform

- Delivered modules across product configuration, pricing, underwriting, policy issuance, document management, and workflow automation on a B2B low-code platform.
- Designed and delivered a Claims Center module from concept to production rollout.
- Re-established sprint discipline and delivery stability; split a 17-person team into smaller Scrum units with clear ownership and deputy structures.
- Reintroduced velocity tracking and structured refinement practices; regained client trust through weekly product workshops.
- Reduced senior developer attrition from near-total to a single departure.

Bundesagentur für Arbeit 2023, 2024

Product Manager, Public Data Analytics

- Delivered new analytics features including labour shortage indicators, flexible regional comparison, and modernised admin tooling.
- Introduced Dagster for automated ETL and reproducible indicator generation, replacing one-off data transformations with a documented pipeline framework.
- Migrated legacy systems to Kubernetes and standardised CI/CD with full test integration at build time.
- Served as Deputy IT Security Officer with focus on compliance, governance, and data lineage.

Rohde & Schwarz 2024, 2025

Product Manager, AI Data Transformation

- Delivered autonomous feature sets end-to-end: user stories, acceptance criteria, implementation support, testing, and GitOps-based rollout.
- Reduced deployment times from several days to 20–40 minutes by introducing GitOps with ArgoCD.
- Improved data quality via filtering, tagging, reproducible transformation pipelines, and audit trails with full data provenance.
- Led a cross-functional team including architect, data scientists, backend and frontend engineers, and QA across a multinational defence programme.

CLINET Platforms 2021, 2022

Product Owner, Mobile Healthcare App

- Delivered core flows for digital anamnesis, meal and therapy plans, transport, chat, and patient document storage on iOS and Android.
 - Integrated CGM interface into hospital information system workflows.
 - Built stakeholder trust through transparent communication of technical complexity with legacy APIs and external databases.
-

§ FOUNDER & EARLY-STAGE EXPERIENCE

Qcrypt AG 2016, 2018

Product Owner

- Owned backup, restore/checkpoint, and data-encryption product architecture for a quantum-secure one-time-pad encryption product.
- Designed the onboarding UX to require no technical knowledge and enable setup in under two minutes.
- Served as deputy IT security officer.

Kvitt Payment Solutions 2013, 2018

Founder & CFO

- Founded a group-based P2P payments platform on a P2P backbone; led PSP integration, full UX/UI design, and mobile app prototype.
- Later acquired and operated by Sparkasse.

Bundesdruckerei 2021

Product Owner, COVID-19 Data Platform

- Delivered secure data structures and identity management for RKI projects DIM and DESH.

AOK Health Insurance – ITSCare 2019, 2020

Proxy Product Owner

- Led migration of internal webshop to Shopware, including complex catalogue and API integration and configurable approval policies.

§ LANGUAGES

German, native. English, C2.
