§ BEARING

Hands-on Product Manager and Product Owner with close to ten years of experience translating complex operational workflows into scalable software systems. Background spans B2B SaaS, public data platforms, regulated environments, and founder-level company building. Comfortable operating in ambiguity and high-pressure delivery where requirements are incomplete and teams need clarity to move. Fluent in AI-native workflows and capable of meaningful technical conversation with engineering teams on APIs, data flows, and deployment architecture. Low ego, high agency, pragmatic about process.

§ CORE STRENGTHS

- Backlog ownership, triage, and sprint discipline in fast-moving teams
- Cross-functional stakeholder alignment across engineering, business, and users
- API and data-flow comprehension for meaningful engineering collaboration
- Product discovery and prioritisation under incomplete information
- Agile ceremony moderation: refinement, planning, review
- AI-native product execution and rapid prototyping
- Delivery unblocking and infrastructure-level problem solving
- Workshop facilitation and client trust rebuilding
- Founder-level pragmatism and self-directed execution

§ PROFESSIONAL EXPERIENCE

Rohde & Schwarz 2024, 2025

Product Manager – AI Data Transformation Platform

- Delivered autonomous feature sets end-to-end: user stories, acceptance criteria, implementation support, testing, and GitOps-based rollout
- Unblocked infrastructure-level issues in OpenShift independently; delivered in one week a feature that had been stalled for over a year
- Reduced deployment times from several days to 20–40 minutes by introducing GitOps with ArgoCD
- Led cross-functional team including architect, data scientists, backend and frontend engineers, and QA
- Improved data quality via filtering, tagging, reproducible transformation pipelines, and full data provenance audit trails

Federal Employment Agency (Bundesagentur für Arbeit) 2023, 2024

Product Manager – Public Data Analytics Platform

- Delivered new features including labour shortage analytics, flexible regional comparison, and modernised admin tooling
- Introduced Dagster for automated ETL and indicator generation, replacing fragile manual processes
- Migrated legacy systems to Kubernetes and managed major system upgrades
- Served as Deputy IT Security Officer with focus on compliance, governance, and data lineage
- Standardised CI/CD with full test integration at build time

Emil Group 2022

Product Manager – InsurTech SaaS Platform

- Rebuilt sprint discipline and delivery stability in a broken delivery environment; split a bloated 17-person team into smaller, effective Scrum units with clear ownership
- Reintroduced velocity tracking and structured refinement practices lost under delivery pressure
- Delivered modules across product configuration, pricing, underwriting, policy issuance, document management, and workflow automation
- Designed and delivered a Claims Center module from concept to production rollout
- Regained client trust through structured communication and weekly product workshops; reduced senior developer attrition from near-total to a single departure

CLINET Platforms 2021, 2022

Product Owner – Mobile Healthcare App

- Delivered core flows for digital anamnesis, meal and therapy plans, transport, chat, and patient document storage
 - Integrated CGM interface into hospital information system workflows
 - Led a small team under tight deadlines with strict focus on highest-leverage features
 - Built stakeholder trust through transparent communication of technical complexity around legacy APIs and external databases
-

§ FOUNDER & EARLY-STAGE EXPERIENCE

Qcrypt AG 2016, 2018

Product Owner

- Owned backup, restore/checkpoint, and data-encryption product architecture for a quantum-secure encryption product based on one-time-pad keys and true random number generator hardware
- Designed for setup under two minutes with no technical knowledge required
- Served as Deputy IT Security Officer

Kvitt Payment Solutions 2013, 2018

Founder & CFO

- Built group-based P2P payment application on a P2P backbone; handled PSP integration, full UX/UI design, and mobile app prototype
- Platform later acquired and operated by Sparkasse

AOK Health Insurance – ITSCare 2019, 2020

Proxy Product Owner

- Migrated internal webshop to Shopware including complex catalogue and API integration and customisable approval policies
-
