§ WHY REIZ TECH

Reiz Tech sits at the intersection of B2B software services and regulated finance, two areas I have worked in throughout my career, at EMIL Group (insurance platform), Kvitt (payments), and Bundesagentur für Arbeit (public-sector data). The specific focus on lending and client-facing roadmap ownership maps well to what I do: talk directly to clients, decide what is worth building, and push it to production in small steps. The low-overhead, decentralised leadership model described in the posting is also how I prefer to work, I make better decisions when I can move quickly without climbing an approval ladder. *That is the kind of environment where I do my best work.*

§ AI-NATIVE STACK

Daily tools, not buzzwords.

- **Claude Code**, in-repo specs and edge-case generation
- **GitHub Copilot**, daily development assist
- **Cursor**, code and requirement drafting
- **Lovable**, rapid front-end prototyping
- **Framer**, design-heavy mockups
- **Gamma.app**, stakeholder presentations
- **GPT**, research and summarisation
- **Jira / Confluence**, backlog and documentation

§ TECHNICAL ENVIRONMENT

Shipped with, not just listed.

Kubernetes, OpenShift, Docker, ArgoCD, GitOps, CI/CD, Jenkins, GitLab, Azure DevOps, Python, Kotlin (Spring Boot), Django, PostgreSQL, MongoDB, Kafka, REST APIs, Dagster, dbt, SQL, Shopware, Matomo, MicroStrategy.

§ SIDE PROJECT

CONSTRUCT8 [GITHUB.COM/HILBERTP](https://github.com/HilbertP) →

Two-sided B2B marketplace matching construction firms with workers, built solo from zero.

- Anonymity-until-payment model that protects both sides of the hire until commitment is made.
 - WhatsApp and Telegram as the product surface, keeping onboarding friction near zero.
 - LLM agents across the funnel so one person runs day-to-day operations.
 - Proves ownership of the full discovery-to-delivery loop, the same scope this role requires.
-

§ HOW I WOULD WORK AT REIZ TECH

First weeks, concrete.

WEEK 1

Listen, map, find the gaps.

Shadow the lending platform team, read existing client feedback, and map the current backlog against the stated business goals to understand where the biggest prioritisation debt sits.

WEEK 2

Sharpen the roadmap.

Run short interviews with two or three clients to validate or challenge the top items on the roadmap, and propose a first round of cuts or re-rankings with written reasoning behind each call.

WEEK 3+

Ship in small steps.

Take one clearly scoped item to production with the delivery team, close the feedback loop with the client who asked for it, and document what we learned so the next slice is cheaper to decide.

I COVER LETTER

Dear Reiz Tech team,

I have 13 years of product ownership in regulated B2B software, insurance, payments, public-sector analytics, and healthcare, and I am applying for the Product Manager role on your lending platform.

The work you describe matches my background closely. At EMIL Group I owned a B2B SaaS platform for insurers, reinsurers, and brokers. I restructured the delivery organisation, shipped the Claims Center from concept to production, and cut time-to-market for new insurance products from months to under a week. At Bundesagentur für Arbeit I owned a national labour-market data platform, introduced Dagster and dbt to automate quarterly data imports, and saved roughly 75% of the time per update. Both roles required the same skills your posting names: client conversations, prioritisation under incomplete information, and cross-functional alignment without formal authority.

The lending context adds one dimension I do not have in production, I have not shipped a loan origination or credit decisioning feature. I have, however, owned product areas where regulation and data privacy set hard constraints: GDPR across multiple projects, and Deputy IT Security Officer at Bundesagentur für Arbeit. I understand how compliance requirements shape what you can build and in what order, and I pick that domain knowledge up quickly in client conversations.

Your posting mentions working with clients and managing senior stakeholder expectations. I am comfortable in that room. At CLINET Platforms I inherited a five-person team with a roadmap it could not deliver, rebuilt trust with hospital stakeholders, and cut the roadmap to the features that actually moved the needle. User acceptance rose more than fivefold. At Rohde & Schwarz I worked with multinational stakeholders on a defence AI platform and redirected strategy when workflow analysis showed that a heavily funded UI approach was recording zero real clicks.

I work remotely, I am an EU citizen, and I can start within four weeks of an offer.

Best regards, *Philipp Hilbert*

II CURRICULUM VITAE

§ PROFILE

Product Manager and Product Owner with 13 years of product ownership in regulated industries, B2B SaaS, insurance, payments, public-sector data, and healthcare. I run continuous discovery, turn client needs and technical constraints into a prioritised roadmap, and lead cross-functional teams through agile delivery. Experience in financial services (payments, insurance), data platform ownership, and stakeholder alignment across business and engineering.

§ HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
 - On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
 - Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
 - I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.
-

§ WORK EXPERIENCE

PRODUCT MANAGER, ROHDE & SCHWARZ, MUNICH / REMOTE | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams.
- Led a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

PRODUCT MANAGER, BUNDESAGENTUR FÜR ARBEIT, NUREMBERG /
REMOTE | 05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

PRODUCT OWNER, CLINET PLATFORMS, BERLIN | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut the roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis time dropped from 30 minutes to 5.

PRODUCT MANAGER, EMIL GROUP, BERLIN | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production and cut time-to-market for new insurance products from months to under a week.

PRODUCT OWNER INTEGRATION TEAM, SCHEIDT & BACHMANN FUEL &
CONVENIENCE RETAIL, MÖNCHENGLADBACH | 09/2021 - 03/2022

- Retail and payments, POS and forecourt systems. Moved research results into production in a fully SAFe setup with agile release trains and PI planning.

PRODUCT OWNER (INTERIM), BUNDESDRUCKEREI, BERLIN | 03/2021 -
06/2021

- Government, secure data platform. Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.

PRODUCT OWNER (PROXY), AOK ITSCARE, FRANKFURT | 03/2019 - 05/2020

- Health insurance, B2B procurement webshop. Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

PROJECT LEAD, ENERCON, WISMAR / MAGDEBURG | 04/2019 - 12/2019

- Wind energy, full site IT modernisation end to end.

PRODUCT OWNER, WALDBURG-ZEIL KLINIKEN, ISNY | 08/2017 - 06/2018

- Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.
-

§ FOUNDER TRACK

FOUNDER AND PRODUCT MANAGER, CONSTRUCT8, LIMASSOL | 12/2025 - 06/2026

- Construction staffing, two-sided B2B marketplace. Built zero to one alone: anonymity-until-payment model, WhatsApp and Telegram as the product surface, LLM agents across the funnel, funnel and conversion analysis in SQL.

CO-FOUNDER AND PRODUCT OWNER, QCRYPT AG, BERLIN | 01/2016 - 12/2021

- IT security, quantum-secure encryption. Shipped a three-layer product that installs in under two minutes for enterprise buyers. Later Chair of the board.

FOUNDER AND CFO, KVITT PAYMENT SOLUTIONS, BERLIN | 02/2013 - 11/2018

- Fintech, mobile group-based P2P payments. Built from zero and taken to acquisition: acquired and operated by Sparkasse inside the girocard ecosystem.
-

§ SKILLS

Product Management: continuous discovery, product vision and product roadmap, prioritisation, MVP definition, PoC, A/B testing, user research and interviews, prototyping, product lifecycle management, go-to-market support.

Product Ownership: requirements engineering, user stories, acceptance criteria, definition of done, epics, backlog refinement, sprint planning, story-point estimation, velocity and burndown, UAT, Jira, Confluence, Figma, Miro.

Agile and Scaled Delivery: Agile, Scrum, Kanban, SAFe (Scaled Agile Framework), ART, PI planning.

Analytics and Data: funnel and churn analysis, KPI definition, ETL, Dagster, dbt, PostgreSQL, Matomo, MicroStrategy, SQL.

Stakeholder and Leadership: stakeholder management, cross-functional team leadership, C-level reporting, workshop facilitation, conflict resolution, change management.

Governance and Business: GDPR (General Data Protection Regulation), Deputy IT Security Officer, identity management, budget ownership, ROI reasoning, EU AI Act.

Technical Environments Owned: Kubernetes, Docker, ArgoCD, GitOps, CI/CD, Jenkins, GitLab, Azure DevOps, Python, REST APIs, PostgreSQL, MongoDB, Kafka.

AI Products and Tooling: LLM agents, agentic workflows, prompt engineering, Claude Code, GitHub Copilot, Cursor, Lovable.

§ EDUCATION

DIPLOM-WIRTSCHAFTSINGENIEUR (INDUSTRIAL ENGINEERING AND MANAGEMENT, EQUIVALENT TO A MASTER'S DEGREE), TECHNISCHE UNIVERSITÄT BERLIN (TU BERLIN), GERMANY | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.
