PROFILE

Product manager and product owner with 13 years of product ownership in regulated industries, insurance, fintech, defence AI, healthcare, and public-sector analytics. I own platform strategy end to end: continuous discovery, translating business and user needs into prioritised backlogs and product roadmaps, and leading cross-functional teams through agile delivery. I have shipped B2B SaaS features in insurance and fintech, integrated AI into operational workflows with human-oversight guardrails, and managed multi-domain platforms serving complex, regulated workflows.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design. I instrumented two competing workflows and the beautiful UI-led one recorded exactly zero clicks.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes for an AI and data platform across multinational teams.
- Spearheaded development of the internal AI and data platform for the FCAS European programme, managing a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit (Federal Employment Agency), Nuremberg / Remote |

05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of the time per data update cycle.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut a roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis dropped from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Shipped the Claims Center from concept to production with no precedent in the organisation.
- Cut time-to-market for a new insurance product launch from months to less than a week.
- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total exodus to a single departure.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

Retail and payments, POS and forecourt systems. SAFe delivery with agile release trains and PI planning.

- Moved research results into production across a matrix organisation in a fully SAFe setup.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021

Government, secure data platform. Identity management for Robert Koch Institute programmes DIM and DESH.

- Owned data structures and identity management epics for a national health data programme.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019 - 05/2020

Health insurance, B2B procurement platform.

- Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025 - 06/2026

- Construction staffing B2B marketplace: anonymity-until-payment model, WhatsApp and Telegram as the product surface, LLM agents across the intake funnel. Funnel and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016 - 12/2021

- IT security, quantum-secure encryption hardware and software. Shipped a three-layer product that installs in under two minutes for enterprise buyers. Later Chair of the board.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013 - 11/2018

- Fintech, mobile group-based P2P payments. Built from zero and taken to acquisition; acquired and operated by Sparkasse inside the girocard ecosystem.

SKILLS

- **Product Ownership:** requirements engineering, user stories, acceptance criteria, definition of done, epics, backlog refinement, sprint planning, UAT (user acceptance testing), velocity and burndown, Jira, Confluence, Figma, Miro.
- **Product Management:** continuous discovery, product vision and product roadmap, prioritisation, MVP (minimum viable product) definition, prototyping, A/B testing, user research and interviews, go-to-market support.
- **Regulated and Domain Experience:** insurance, fintech, healthcare, defence AI, public sector; GDPR, EU AI Act, Deputy IT Security Officer, compliance and privacy design.
- **B2B SaaS and Platform:** B2B platform strategy, multi-sided marketplace design, case management workflow design, document management, payment processing product ownership.
- **Agile and Scaled Delivery:** Agile, Scrum, Kanban, SAFe (Scaled Agile Framework), ART (agile release train), PI planning.
- **AI Products and Tooling:** LLM agents, agentic workflows, human-in-the-loop design, AI governance, Explainable AI (XAI), prompt and context engineering; Claude Code, GitHub Copilot, Cursor, Lovable, Framer, n8n.
- **Analytics and Data:** funnel and churn analysis, KPI definition, ETL, Dagster, dbt, PostgreSQL, Matomo, MicroStrategy.
- **Technical Environments Owned:** Kubernetes, Docker, ArgoCD, GitOps, CI/CD, Jenkins, GitLab, Azure DevOps, REST APIs, Python, Kotlin, SQL, PostgreSQL, MongoDB, Kafka.

EDUCATION

Diplom-Wirtschaftsingenieur (Industrial Engineering and Management, equivalent to a Master's degree),

Technische Universität Berlin (TU Berlin), Germany | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.

LANGUAGES

German (native speaker, C2) · English (C2, business and technical fluency)
