PROFILE

Product manager and product owner with 13 years of product ownership across fintech, payments, regulated onboarding, defence AI, and healthcare. At Kvitt Payment Solutions I built a P2P payments product from zero to acquisition by Sparkasse. I bring 8 years of hands-on crypto experience including L2 protocol work at Polygon, and I run continuous discovery, user research, and data-driven iteration as standard practice across agile delivery.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design. I instrumented two competing workflows and the beautiful UI-led one recorded exactly zero clicks.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams, making the platform hotfix-capable.
- Managed a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit, Nuremberg / Remote | 05/2023 - 07/2024

Public sector. National labour-market analytics platform. Deputy IT Security Officer.

- Integrated test automation into the Jenkins pipeline and freed several QA hours every week; introduced Dagster and dbt so quarterly data imports ran without hand-holding, saving almost 75% of the time per update.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut the roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis went from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production and cut time-to-market for a new insurance product from months to under a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

- Retail and payments, POS and forecourt systems. Moved research results into production in a full SAFe setup with agile release trains and PI planning.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021

- Government, secure data platform. Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019 - 05/2020

- Health insurance, B2B procurement webshop. Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees. Backlog refinement, user stories and acceptance criteria in Jira.

Product Owner, Waldburg-Zeil Kliniken, Isny | 08/2017 - 06/2018

- Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025 - Present

- Construction staffing marketplace, built solo. WhatsApp and Telegram as the product surface, LLM agents across the funnel, anonymity-until-payment model. Funnel and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016 - 12/2021

- IT security, quantum-secure encryption hardware and software. Shipped a three-layer product that installs in under two minutes to satisfy enterprise buyers. Later Chair of the board.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013 - 11/2018

- Fintech, mobile group-based P2P payments. Built from zero to acquisition by Sparkasse, operated inside the girocard ecosystem.

SKILLS

- **Product Management:** continuous discovery, product vision and roadmap, prioritisation, MVP definition, A/B testing, user research and interviews, usability testing, funnel and cohort analysis, CX metrics (conversion, activation, retention, NPS/CSAT), prototyping, go-to-market support.
- **FinTech and Crypto:** P2P payments, girocard ecosystem, PSP integration, regulated onboarding, KYC/AML frameworks, crypto wallets, custody, on-chain transactions, CEX/DEX mechanics, L2 protocols, stablecoins, cross-chain bridging.
- **AI Products and Tooling:** LLM agents, agentic workflows, prompt and context engineering, evaluation loops, human-in-the-loop design, AI governance, EU AI Act, Explainable AI (XAI); Claude Code, GitHub Copilot, Cursor, Lovable, Framer, n8n.
- **Analytics and Data:** funnel and churn analysis, KPI definition, event tracking, Matomo, MicroStrategy, ETL, Dagster, dbt, PostgreSQL, SQL, cohort analysis.
- **Agile Delivery:** Scrum, Kanban, SAFe, backlog refinement, sprint planning, velocity tracking, Jira, Confluence, Figma, Miro.
- **Regulated:** GDPR, Deputy IT Security Officer, identity management, compliance alignment in financial products.
- **Technical Environments:** Kubernetes, Docker, ArgoCD, GitOps, CI/CD, Jenkins, REST APIs, Python, Kotlin, PostgreSQL, MongoDB, Kafka.

EDUCATION

Diplom-Wirtschaftsingenieur (Industrial Engineering and Management, equivalent to a Master's degree), Technische Universität Berlin (TU Berlin), Germany | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.

LANGUAGES

German (native speaker, C2) · English (C2, business and technical fluency)
