PROFILE

Senior Product Manager with 13 years of product ownership in regulated industries: fintech, insurance, healthcare, public-sector analytics, and defence AI. I have shipped KYC-adjacent identity products, P2P payment platforms, and data platform infrastructure, and I run continuous discovery to turn strategy, user needs, and compliance constraints into a prioritised roadmap. I lead cross-functional teams through agile delivery (Scrum, Kanban, SAFe) and instrument funnels to measure whether outcomes actually move.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design. I instrumented two competing workflows and the beautiful UI-led one recorded exactly zero clicks.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams.
- Led a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit (Federal Employment Agency), Nuremberg / Remote |

05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly data imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut the roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis time dropped from 30 minutes to 5.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production with no precedent, and cut time-to-market for a new insurance product from months to less than a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

- Retail and payments, POS and forecourt systems. Moved research results into production across a matrix organisation in a fully SAFe setup with agile release trains and PI planning.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021

- Government, secure data platform. Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019 - 05/2020

- Health insurance, B2B procurement webshop. Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

Project Lead, Enercon, Wismar / Magdeburg | 04/2019 - 12/2019

- Wind energy, full site IT modernisation end to end.

Product Owner, Waldburg-Zeil Kliniken, Isny | 08/2017 - 06/2018

- Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025-Present

- Construction staffing, two-sided B2B marketplace built zero to one alone: anonymity-until-payment model, WhatsApp and Telegram as the product surface, LLM agents across the funnel, funnel and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016 - 12/2021

- IT security, quantum-secure encryption hardware and software. Shipped a three-layer product that installs in under two minutes to overcome enterprise resistance to long installations. Later Chair of the board.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013 - 11/2018

- Fintech, mobile group-based P2P payments. Built from zero and acquired by Sparkasse, operated inside the girocard ecosystem.
