PROFILE

Senior Product Manager with 13 years of product ownership in regulated industries, including crypto, fintech, insurance, healthcare, and public-sector analytics. I run continuous discovery, own the funnel from first contact through activation, and turn user research and data into a prioritised roadmap. I am an active crypto trader with eight years of hands-on experience across CEX and DEX venues including Kraken Pro, Hyperliquid, and Jupiter, with deep familiarity with spot trading, perpetual futures, DEX aggregation, and cross-chain execution. I lead cross-functional teams through agile delivery and use AI tools, Claude Code, Cursor, Lovable, n8n, as production instruments, not experiments.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design. Instrumented two competing workflows; the UI-led path recorded exactly zero clicks.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams and making the platform hotfix-capable.
- Led a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit (Federal Employment Agency), Nuremberg / Remote |

05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers, giving the team autonomous control of its own environments, while carrying a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- A five-person team faced a roadmap it could not deliver. I cut it to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis dropped from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production with no precedent, and cut time-to-market for a new insurance product from months to less than a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

Retail and payments, POS and forecourt systems.

- Moved research results into production across a matrix organisation in a fully SAFe setup with agile release trains and PI planning.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021

Government, secure data platform.

- Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019 - 05/2020

Health insurance, B2B procurement webshop.

- Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production. Backlog refinement, user stories and acceptance criteria in Jira.

Project Lead, Enercon, Wismar / Magdeburg | 04/2019 - 12/2019

Wind energy, full site IT modernisation end to end.

Product Owner, Waldburg-Zeil Kliniken, Isny | 08/2017 - 06/2018

Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025 - 06/2026

- Construction staffing, two-sided B2B marketplace. Zero to one alone: anonymity-until-payment model, WhatsApp and Telegram as the product surface, LLM agents across the funnel, and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016 - 12/2021

- IT security, quantum-secure encryption. Shipped a three-layer product that installs in under two minutes to meet enterprise buyers' constraints. Later Chair of the board.

Co-Founder, CDO and CFO, Smart Soil Technologies, Berlin | 03/2018 - 08/2021

- Nanotechnology and agriculture. Took a fertiliser product from laboratory to investor rounds, owning financial planning and investor reporting.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013 - 11/2018

- Fintech, mobile group-based P2P payments. Built from zero to acquisition: acquired and operated by Sparkasse inside the girocard ecosystem.

SKILLS

- **Product Management:** continuous discovery, funnel and activation analysis, user research and interviews, A/B testing, MVP definition, PoC, product vision and roadmap, prioritisation, go-to-market support, product lifecycle management.
- **Product Ownership:** requirements engineering, user stories, acceptance criteria, definition of done, epics, backlog refinement, sprint planning, velocity and burndown, UAT, Jira, Confluence, Figma, Miro.
- **AI Products and Tooling:** LLM agents, agentic workflows, prompt and context engineering, evaluation loops, human-in-the-loop design, AI governance, EU AI Act, Explainable AI (XAI); Claude Code, GitHub Copilot, Cursor, Lovable, n8n.
- **Analytics and Data:** funnel and churn analysis, KPI definition, Matomo, MicroStrategy, ETL, Dagster, dbt, PostgreSQL, SQL.
- **Crypto and Web3:** CEX/DEX mechanics, spot trading, perpetual futures, DEX aggregation, cross-chain bridging, liquidation analysis, Coinglass, Hyblock Capital, Hyperliquid, Jupiter, 1inch, Across Protocol.
- **Agile and Scaled Delivery:** Agile, Scrum, Kanban, SAFe, ART, PI planning, WIP limits, CI/CD, GitOps with ArgoCD.
- **Technical Environments Owned:** Kubernetes, Docker, OpenShift, Jenkins, GitLab, Azure DevOps, REST APIs, Python, Kotlin, Django, PostgreSQL, MongoDB, Kafka.
- **Governance and Business:** GDPR, Deputy IT Security Officer, identity management, budget ownership, ROI reasoning.

EDUCATION

Diplom-Wirtschaftsingenieur (Industrial Engineering and Management, equivalent to a Master's degree), Technische Universität Berlin (TU Berlin), Germany | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.
