Positioning. I have spent 13 years turning product strategy into shipped outcomes in regulated B2B environments, and I want to do that for Veriff's Customer Portal.

§ PROFILE

Product manager and product owner with 13 years of product ownership in regulated B2B SaaS environments: defence AI, public-sector analytics, insurance, healthcare, payments and retail. I own continuous discovery, connect product bets to revenue and retention, and lead cross-functional teams through agile delivery.

§ HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
 - On a new product I spend a little to learn before spending a lot to build.
 - Outcome over output. I agree what would count as success before we build and check afterwards whether it happened.
 - I keep the whole value chain in view, not just the backlog.
