PROFILE

Product manager and product owner with 13 years of product ownership in regulated B2B environments including defence AI, public-sector analytics, insurance, healthcare, fintech, and payments. I own AI and data platform roadmaps, translate model-level metrics into user outcomes, and lead cross-functional teams through agile delivery. I run continuous discovery, turn strategy and technical constraints into requirements and a prioritised roadmap, and keep stakeholders from Tax to Engineering aligned on what accuracy actually means.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024-05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design. I instrumented two competing workflows and the beautiful UI-led one recorded exactly zero clicks.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams and making the platform hotfix-capable.
- Managed a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit (Federal Employment Agency), Nuremberg / Remote |

05/2023-07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly data imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Integrated test automation into the Jenkins pipeline and freed several QA hours every week, then migrated a bare-metal system fully into containers.

Product Owner, CLINET Platforms, Berlin | 01/2023-07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut a roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis dropped from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022-12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production and cut time-to-market for a new insurance product from months to less than a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021-03/2022

- Retail and payments, POS and forecourt systems. Moved research results into production in a fully SAFe setup with agile release trains and PI planning.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021-06/2021

- Government, secure data platform. Data structures and identity management for the Robert Koch Institute programmes DIM and DESH.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019-05/2020

- Health insurance, B2B procurement webshop. Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025-06/2026

- Construction staffing, two-sided B2B marketplace. Zero to one alone: LLM agents across the funnel, WhatsApp and Telegram as product surface, funnel and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016-12/2021

- IT security, quantum-secure encryption. Shipped a three-layer product that installs in under two minutes for enterprise buyers. Later Chair of the board.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013-11/2018

- Fintech, mobile group-based P2P payments. Built from zero and taken to acquisition: acquired and operated by Sparkasse inside the girocard ecosystem.

SKILLS

- **AI Products and Tooling:** LLM agents, agentic workflows, prompt and context engineering, evaluation loops, human-in-the-loop design, AI governance, EU AI Act, Explainable AI (XAI); full prototyping with Claude Code, GitHub Copilot, Cursor and Lovable.
- **Product Management:** continuous discovery, product vision and product roadmap, prioritisation (RICE, WSJF, Kano, opportunity scoring), MVP definition, acceptance criteria, PoC (proof of concept), A/B testing, user research and interviews, voice-of-customer synthesis, go-to-market support.
- **Product Ownership:** requirements engineering, user stories, definition of done, epics, backlog refinement, sprint planning, velocity and burndown, release planning, UAT (user acceptance testing), Jira, Confluence, Figma, Miro.
- **Analytics and Data:** KPI definition, funnel analysis, ETL (extract, transform, load), Dagster, dbt, PostgreSQL, MicroStrategy, Matomo.
- **Agile and Scaled Delivery:** Scrum, Kanban, SAFe (Scaled Agile Framework), ART (agile release train), PI planning.
- **Technical Environments Owned:** Kubernetes, ArgoCD, Docker, GitOps, CI/CD, Jenkins, Python, REST APIs, PostgreSQL, MongoDB, Kafka, Azure DevOps.
- **Stakeholder and Leadership:** C-level and executive reporting, cross-functional team leadership, workshop facilitation, conflict resolution, change management.
- **Governance and Business:** GDPR, B2B fintech compliance, Deputy IT Security Officer, budget ownership, ROI reasoning.

EDUCATION

Diplom-Wirtschaftsingenieur (Industrial Engineering and Management, equivalent to a Master's degree), Technische Universität Berlin (TU Berlin), Germany | 10/2006-09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.

LANGUAGES

German (native speaker, C2) · English (C2, business and technical fluency)
