PROFILE

Senior Product Owner and Product Manager with 13 years of product ownership in regulated industries including insurance, public-sector analytics, healthcare, payments, and defence AI. I gather requirements from clients and stakeholders, write user stories and acceptance criteria, manage the product backlog, and lead cross-functional teams through Scrum and Kanban. I communicate clearly at every level, from engineering stand-ups to executive steering committees.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Spearheaded development of the internal AI and data platform for the FCAS European programme, managing a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.
- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.
