§ BEARING

Hands-on Product Owner and Product Manager with nearly ten years of experience translating complex operational workflows into dev-ready requirements and shipped software. Regulated environments – InsurTech, defence, public sector – are the core of my delivery record. Comfortable owning the full squad responsibility: backlog prioritisation, refinement quality, acceptance criteria, stakeholder communication, and feature sign-off. AI-native in daily execution, founder-level in pragmatism, low ego in team dynamics.

§ CORE STRENGTHS

- Backlog ownership and sprint discipline in scaled agile environments
- Writing dev-ready user stories with unambiguous acceptance criteria
- Cross-functional stakeholder management across business, engineering, and compliance
- Refinement facilitation and product workshop moderation
- Delivery ownership in regulated, audit-sensitive environments
- Feature acceptance and quality sign-off under compliance constraints
- Team restructuring and velocity recovery in stalled delivery situations
- Transparent status communication toward Tribe Leads and external stakeholders
- AI-native product execution and rapid requirements prototyping

§ PROFESSIONAL EXPERIENCE

Rohde & Schwarz 2024, 2025

Product Manager, AI Data Transformation

- Delivered autonomous feature sets end-to-end: user stories, acceptance criteria, implementation support, testing, and GitOps-based rollout
- Led cross-functional squad including architect, data scientists, backend and frontend engineers, and QA
- Reduced deployment times from several days to 20–40 minutes by introducing GitOps with ArgoCD
- Unblocked infrastructure-level issues in OpenShift independently; delivered in one week a feature the project lead had been requesting from engineers for over a year
- Responsible for data transformation, transparency, and auditability with multinational stakeholders
- Improved data quality via filtering, tagging, reproducible transformation pipelines, and audit trails with full data provenance

Federal Employment Agency (Bundesagentur für Arbeit) 2023, 2024

Product Manager, Public Data Analytics

- Delivered new features including labour shortage analytics, flexible regional comparison, and modernised admin tooling
- Served as Deputy IT Security Officer (IT-SV) with focus on compliance, governance, and data lineage
- Introduced Dagster for automated ETL and indicator generation; standardised CI/CD with full test integration
- Migrated legacy systems to Kubernetes and managed major system upgrades
- Designed interactive dashboards, tables, and community features (groups, networks, events)

Emil Group 2022, 2022

Product Manager, InsurTech SaaS Platform

- Re-established sprint discipline and delivery stability; split a bloated 17-person team into smaller, effective Scrum units and introduced ownership and deputy concepts
- Reintroduced velocity tracking and structured refinement practices lost under delivery pressure
- Regained client trust in a prototype-stage environment through structured communication and weekly product workshops

- Delivered modules across product configuration, pricing, underwriting, policy issuance, document management, and workflow automation
- Designed and delivered a Claims Center module from concept to production rollout
- Reduced senior developer attrition from near-total to a single departure

CLINET Platforms 2021, 2022

Product Owner, Mobile Healthcare App

- Led delivery of core flows for digital anamnesis, meal and therapy plans, transport, chat, and patient document storage
- Integrated CGM interface into hospital information system workflows with strict compliance constraints
- Built stakeholder trust through transparent communication of technical complexity across legacy APIs and external databases

§ FOUNDER & EARLY-STAGE EXPERIENCE

Qcrypt AG 2016, 2018

Co-Founder & Product Owner

- Owned product architecture for quantum-secure encryption product based on one-time-pad keys and true random number generator hardware
- Defined USP: setup under two minutes, no technical knowledge required
- Served as deputy IT security officer; responsible for security architecture and attack vector mitigation

Kvitt Payment Solutions 2013, 2018

Founder & CFO

- Built group-based P2P payment product on a P2P backbone, including PSP integration, full UX/UI design, and mobile app prototype
- Product later acquired and operated by Sparkasse

AOK Health Insurance – ITSCare 2019, 2020

Proxy Product Owner

- Migrated internal webshop to Shopware including complex catalogue and API integration and configurable approval policies
