PROFILE

Product manager and product owner with 13 years of product ownership in regulated industries, including AI systems, public-sector analytics, defence, insurance, healthcare, payments and retail. I run continuous discovery, turn strategy, user needs and technical constraints into requirements and a prioritised roadmap, and lead cross-functional teams through agile delivery (Scrum, Kanban, SAFe).

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024-05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams, making the platform hotfix-capable.
- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.
- Spearheaded the internal AI and data platform for the FCAS European programme, managing a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

05/2023-07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers, giving the team autonomous control of its own environments, while carrying a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023-07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut the roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.

Product Manager, EMIL Group, Berlin | 04/2022-12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams: attrition fell from near-total to a single departure.
