PROFILE

Product Manager and Product Owner with 13 years of product ownership in regulated industries, including FinTech, insurance, public-sector analytics, healthcare, and defence AI. I run continuous discovery, translate strategy and user needs into a prioritised roadmap, and lead cross-functional teams through agile delivery. I am comfortable with REST APIs, microservice architectures, and data-heavy B2B products. I have eight years of hands-on crypto experience alongside enterprise B2B SaaS delivery.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes for an AI and data platform across multinational teams, and making the platform hotfix-capable.
- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.
- Spearheaded development of the internal AI and data platform for the FCAS European programme, managing a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit (Federal Employment Agency), Nuremberg / Remote |

05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Integrated test automation into the Jenkins pipeline and freed several QA hours every week, then introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers, putting the team in autonomous control of its own environments, and carried a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- A five-person team faced a roadmap it could not deliver. I cut it to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM (CompuGroup Medical) interface into hospital information system (KIS) workflows: the digital anamnesis went from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- An 18-person delivery organisation was losing its senior engineers and its client trust. I restructured it into three lean teams with their own leads: attrition fell from a near-total exodus to a single departure.
- Shipped the Claims Center from concept to production with no precedent, and cut time-to-market for a new insurance product from months to less than a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

Retail and payments. POS and forecourt systems in a fully SAFe setup.

- Moved research results into production across a matrix organisation with agile release trains and PI planning.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021

Government, secure data platform. Identity management for the Robert Koch Institute.

- Data structures and identity management for the RKI programmes DIM and DESH.

Product Owner (proxy), AOK ITSCare, Frankfurt | 03/2019 - 05/2020

Health insurance. B2B procurement webshop.

- Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

Project Lead, Enercon, Wismar / Magdeburg | 04/2019 - 12/2019

- Wind energy, full site IT modernisation end to end.

Product Owner, Waldburg-Zeil Kliniken, Isny | 08/2017 - 06/2018

- Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.

FOUNDER TRACK

Founder and Product Manager, construct8, Limassol | 12/2025-Present

- Construction staffing B2B marketplace: anonymity-until-payment model, LLM agents across the funnel, funnel and conversion analysis in SQL.

Co-Founder and Product Owner, Qcrypt AG, Berlin | 01/2016 - 12/2021

- IT security, quantum-secure encryption. Shipped a three-layer product that installs in under two minutes. Later Chair of the board.

Founder and CFO, Kvitt Payment Solutions, Berlin | 02/2013 - 11/2018

- FinTech, mobile group-based P2P payments. Built from zero, acquired and operated by Sparkasse inside the girocard ecosystem.

SKILLS

- **Product Management:** continuous discovery, product vision and roadmap, prioritisation, MVP definition, PoC, A/B testing, user research and interviews, prototyping, go-to-market support, product lifecycle management.
- **Product Ownership:** requirements engineering, user stories, acceptance criteria, definition of done, epics, backlog refinement, sprint planning, story-point estimation, velocity and burndown, UAT, Jira, Confluence, Figma, Miro.
- **B2B and Regulated Domains:** FinTech, insurance, crypto, public sector, healthcare, defence; GDPR (DSGVO), Deputy IT Security Officer, identity management, data trust and compliance workflows.
- **Technical Environments Owned:** REST APIs, Python, Kotlin (Spring Boot), PostgreSQL, MongoDB, Kafka, Kubernetes, Docker, ArgoCD, GitOps, CI/CD, Jenkins, GitLab, Azure DevOps, Git.
- **Data and Analytics:** ETL, Dagster, dbt, funnel and churn analysis, KPI definition, Matomo, MicroStrategy.
- **AI Products and Tooling:** LLM agents, agentic workflows, prompt engineering, human-in-the-loop design, EU AI Act; Claude Code, GitHub Copilot, Cursor, Lovable.
- **Agile and Scaled Delivery:** Scrum, Kanban, SAFe, ART, PI planning, WIP limits.

EDUCATION

Diplom-Wirtschaftsingenieur (Industrial Engineering and Management, equivalent to a Master's degree), Technische Universität Berlin (TU Berlin), Germany | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.
