PROFILE

Product Manager and Product Owner with 13 years of product ownership, including 8 years in crypto and DeFi. I run continuous discovery, turn strategy, user needs, and technical constraints into a prioritised roadmap, and lead cross-functional teams through agile delivery (Scrum, Kanban, SAFe). My background spans DeFi infrastructure, AI and data platforms, regulated B2B SaaS, and payments.

HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

WORK EXPERIENCE

Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams, and making the platform hotfix-capable.
- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.
- Led a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

Product Manager, Bundesagentur für Arbeit, Nuremberg / Remote | 05/2023 - 07/2024

Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.

- Integrated test automation into the Jenkins pipeline and introduced Dagster and dbt, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

Product Owner, CLINET Platforms, Berlin | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut a roadmap a five-person team could not deliver to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis went from 30 minutes to 5 from form to database.

Product Manager, EMIL Group, Berlin | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from a near-total exodus to a single departure.
- Shipped the Claims Center from concept to production and cut time-to-market for a new insurance product from months to less than a week.

Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021 - 03/2022

Retail and payments. POS and forecourt systems in a fully SAFe setup with agile release trains and PI planning.

- Moved research results into production across a matrix organisation.

Product Owner (interim), Bundesdruckerei, Berlin | 03/2021 - 06/2021
