### PROFILE

Product manager and product owner with 13 years of product ownership across B2B SaaS, FinTech, HealthTech, insurance, and defence AI. I run continuous discovery, write detailed product specifications and user stories, and lead cross-functional teams through Scrum, Kanban, and SAFe delivery. I have shipped production features in regulated environments where requirements, business goals, and technical feasibility all have to be balanced at once.

### HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
- On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
- Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
- I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.

### WORK EXPERIENCE

#### Product Manager, Rohde & Schwarz, Munich / Remote | 07/2024-05/2025

*Defence and aerospace. Internal AI and data platform for the FCAS European programme.*

- Redirected product strategy based on user workflow analysis, increasing pipeline runs by 200% by prioritising developer-code-first over UI-led design.
- Championed GitOps delivery and test automation with ArgoCD, reducing rollout time from days to 30 minutes across multinational teams.
- Spearheaded development of the AI and data platform for the FCAS programme, managing a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence.

#### Product Manager, Bundesagentur für Arbeit, Nuremberg / Remote | 05/2023-07/2024

*Public sector. National labour-market analytics platform for policymakers and researchers. Deputy IT Security Officer.*

- Introduced Dagster and dbt so quarterly imports and new indicators ran without hand-holding, saving almost 75% of time per data update.
- Integrated test automation into the Jenkins pipeline and freed several QA hours every week. Migrated a bare-metal system into containers and carried a full UI relaunch and a large ETL migration through the same period.

#### Product Owner, CLINET Platforms, Berlin | 01/2023-07/2023

*HealthTech. Mobile patient app for iOS and Android, piloted in hospitals.*

- Cut the roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into hospital information system workflows: digital anamnesis fell from 30 minutes to 5 from form to database.

#### Product Manager, EMIL Group, Berlin | 04/2022-12/2022

*Insurance. B2B SaaS platform for insurers, reinsurers, brokers, and underwriters.*

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total exodus to a single departure.
- Shipped the Claims Center from concept to production with no precedent. Cut time-to-market for a new insurance product from months to under a week.

#### Product Owner Integration Team, Scheidt & Bachmann Fuel & Convenience Retail, Mönchengladbach |

09/2021-03/2022

*Retail and payments. POS and forecourt systems in a fully SAFe setup with agile release trains and PI planning.*

- Moved research results into production across a matrix organisation.

#### Product Owner (interim), Bundesdruckerei, Berlin | 03/2021-06/2021

**Project Lead, Enercon, Wismar / Magdeburg** | 04/2019-12/2019

- Wind energy, full site IT modernisation end to end.

**Co-Founder and Product Owner, Qcrypt AG, Berlin** | 01/2016-12/2021
