

Philipp Hilbert. *Technical Product Owner, AI-first delivery teams.*

Positioning, Product manager and engineer turned PO with 13 years running software teams, now building with AI tools every day.

§ WHY STREAMTV

StreamTV is designing the development process from scratch for an AI-first team, not patching an existing one. That is rare. The posting is specific about Asana and GitHub with Claude as a daily tool, and about wanting someone who will challenge estimates alongside a Lead Developer rather than just relay them. I have done exactly that at Rohde & Schwarz, where I challenged a UI-first assumption with instrumented data and redirected the whole platform strategy. *That kind of hands-on involvement in technical trade-offs is where I do my best work.*

§ AI-NATIVE STACK

Daily tools, not buzzwords.

- **Claude Code**, in-repo specs and ticket drafting
- **GitHub Copilot**, code review and estimation checks
- **Cursor**, lightweight prototyping and code reading
- **Lovable**, rapid front-end prototypes for user testing
- **Framer**, design-heavy documentation and decks
- **Gamma.app**, async stakeholder presentations
- **n8n**, agentic workflow automation
- **GPT**, research drafts and edge-case generation

§ TECHNICAL ENVIRONMENT

Shipped with, not just listed.

Kubernetes, OpenShift, Docker, ArgoCD, GitOps rollout and rollback, Jenkins, CI/CD, Git, GitLab, Azure DevOps, REST APIs, Python, Kotlin with Spring Boot, Django, PostgreSQL, MongoDB, Kafka, Dagster, dbt, SQL.

§ SIDE PROJECT

CONSTRUCT8 [GITHUB.COM/HILBERTP](https://github.com/HilbertP) →

Two-sided B2B marketplace matching construction firms with workers.

- Built zero to one alone: anonymity-until-payment model protecting both sides until commitment.
 - WhatsApp and Telegram as the product surface, LLM agents across the funnel so one person runs the day-to-day.
 - Funnel and conversion analysis in SQL.
 - Shows how I approach AI-first product execution: agents replacing headcount, not assisting it.
-

§ HOW I WOULD WORK AT STREAMTV

First weeks, concrete.

WEEK 1

Listen, map, find the gaps.

Sit with each developer one-on-one, read the last three retrospectives, and map where estimates slip against actuals in GitHub.

WEEK 2

Slice and challenge.

Run a planning session, challenge the two or three biggest estimates with the Lead Developer, and propose a lighter sprint structure that fits how the team actually works.

WEEK 3+

Ship and close loops.

Own the first delivery cycle end to end, write the retrospective, and land one process change the team asked for.

I COVER LETTER

Dear StreamTV team,

I am a Product Owner and product manager with 13 years of experience running software development teams, and I want to bring that to StreamTV as your Technical Product Owner.

At Rohde & Schwarz I managed a cross-functional team of 15+ engineers and data scientists building an AI and data platform for the FCAS programme. I instrumented two competing product workflows, challenged the assumption behind the roadmap with hard data, and redirected the strategy. At EMIL Group I inherited an 18-person delivery organisation that was losing its senior engineers: I restructured it into three lean teams, cut attrition from near-total to a single departure, and shipped the Claims Center from concept to production. At Bundesagentur für Arbeit I ran delivery as Deputy IT Security Officer while carrying a full UI relaunch and a large ETL migration in parallel. In each case the job was the same: translate unclear priorities into buildable work, keep the team honest on estimates, and remove the blockers that slow delivery down.

I write production code as part of my daily work. I use Claude Code, GitHub Copilot, and Cursor to read and review code, draft specs, and check whether an estimate is grounded. I have Asana and GitHub as planning surfaces, and I know how to run Scrum without running it by the book when the book does not fit.

The part of the StreamTV role that interests me most is the mandate to design the development process for an AI-first team. I have done this in pieces at previous roles, but never with an explicit brief to do it end to end. A small, fast team where Claude is a first-class planning tool rather than an afterthought is the environment I want to be in.

I am based in Berlin, fluent in German and English, and available on four weeks' notice.

Best regards, *Philipp Hilbert*

II CURRICULUM VITAE

§ PROFILE

Product Owner and product manager with 13 years of product ownership in SaaS, defence AI, public-sector analytics, insurance, healthcare, and payments. I run cross-functional development teams through Scrum and Kanban, translate product decisions into buildable specifications, and

challenge estimates and trade-offs with engineering leads. I started as an engineer, wrote production code, and now use AI tools daily for planning and delivery.

§ HOW I WORK

- I leave my ego at home. I want to drive the decision, not to have the last word.
 - On a new product I spend a little to learn before spending a lot to build. Cheap experiments make expensive decisions safe(r).
 - Outcome over output. Producing something is not the achievement; it also has to fit a market, so I agree what would count as success before we build and check afterwards whether it happened.
 - I keep the whole value chain in view, not just the backlog. Defect-to-fix time is a product metric; architects and DevOps engineers build that chain, my job is to steer it into the right lanes.
-

§ WORK EXPERIENCE

PRODUCT MANAGER, ROHDE & SCHWARZ, MUNICH / REMOTE | 07/2024 - 05/2025

Defence and aerospace. Internal AI and data platform for the FCAS European programme.

- Managed a cross-functional team of 15+ engineers and data scientists through Scrum in Jira and Confluence, running planning, estimation, retrospectives, and delivery reporting.
- Redirected product strategy based on instrumented workflow analysis, increasing pipeline runs by 200% by challenging the UI-led assumption with data.
- Championed GitOps delivery with ArgoCD, reducing rollout time from days to 30 minutes and making the platform hotfix-capable.

PRODUCT MANAGER, BUNDESAGENTUR FÜR ARBEIT (FEDERAL EMPLOYMENT AGENCY), NUREMBERG / REMOTE | 05/2023 - 07/2024

Public sector. National labour-market analytics platform. Deputy IT Security Officer.

- Introduced Dagster and dbt so quarterly imports ran without hand-holding, saving almost 75% of the time per data update.
- Migrated a bare-metal system fully into containers and carried a full UI relaunch and a large ETL migration through the same period.

PRODUCT OWNER, CLINET PLATFORMS, BERLIN | 01/2023 - 07/2023

Healthcare. Mobile patient app for iOS and Android, piloted in hospitals.

- Cut an undeliverable roadmap to the top 10% of features against agreed success measures: user acceptance rose more than fivefold.
- Implemented the CGM interface into KIS workflows: digital anamnesis dropped from 30 minutes to 5.

PRODUCT MANAGER, EMIL GROUP, BERLIN | 04/2022 - 12/2022

Insurance. B2B SaaS platform for insurers, reinsurers, brokers and underwriters.

- Restructured an 18-person delivery organisation into three lean teams with their own leads: attrition fell from near-total to a single departure.
- Shipped the Claims Center from concept to production with no precedent; cut time-to-market for new insurance products from months to less than a week.

PRODUCT OWNER INTEGRATION TEAM, SCHEIDT & BACHMANN FUEL & CONVENIENCE RETAIL, MÖNCHENGLADBACH | 09/2021 - 03/2022

Retail and payments, POS and forecourt systems.

- Moved research results into production in a fully SAFe setup with agile release trains and PI planning.

PRODUCT OWNER (INTERIM), BUNDESDRUCKEREI, BERLIN | 03/2021 - 06/2021

- Government, secure data platform. Data structures and identity management for Robert Koch Institute programmes DIM and DESH.

PRODUCT OWNER (PROXY), AOK ITSCARE, FRANKFURT | 03/2019 - 05/2020

- Health insurance, B2B SaaS procurement webshop. Migrated a legacy system to Shopware for three AOK insurers and roughly 20,000 employees; still in production.

PROJECT LEAD, ENERCON, WISMAR / MAGDEBURG | 04/2019 - 12/2019

- Wind energy, full site IT modernisation end to end.

PRODUCT OWNER, WALDBURG-ZEIL KLINIKEN, ISNY | 08/2017 - 06/2018

- Healthcare, clinical network. Wifi infrastructure rollout across nine hospitals.

§ FOUNDER TRACK

FOUNDER AND PRODUCT MANAGER, CONSTRUCT8, LIMASSOL | 12/2025 - 06/2026

- Construction staffing, two-sided B2B marketplace. Built zero to one alone with LLM agents across the funnel; one person runs the day-to-day.

CO-FOUNDER AND PRODUCT OWNER, QCRYPT AG, BERLIN | 01/2016 - 12/2021

- IT security, quantum-secure encryption. Shipped a three-layer product that installs in under two minutes for enterprise buyers. Later Chair of the board.

FOUNDER AND CFO, KVITT PAYMENT SOLUTIONS, BERLIN | 02/2013 - 11/2018

- Fintech, mobile P2P payments. Built from zero to acquisition by Sparkasse inside the girocard ecosystem.

§ SKILLS

Product Ownership: requirements engineering, user stories, acceptance criteria, definition of done, backlog refinement, sprint planning, sprint review, retrospective, story-point estimation, velocity and burndown, release planning, Jira, Confluence, Asana, GitHub.

Agile and Scaled Delivery: Scrum, Kanban, SAgile (Scaled Agile Framework), ART (agile release train), PI planning, WIP limits.

AI Products and Tooling: LLM agents, agentic workflows, prompt engineering, human-in-the-loop design, AI governance, EU AI Act; Claude Code, GitHub Copilot, Cursor, Lovable, Framer, n8n.

Product Management: continuous discovery, product roadmap, prioritisation, MVP definition, A/B testing, user research, prototyping, go-to-market support, SaaS product lifecycle.

Technical Environments Owned: Kubernetes, Docker, ArgoCD, GitOps, CI/CD, Jenkins, Git, GitLab, Azure DevOps, REST APIs, Python, Kotlin, PostgreSQL, MongoDB, Kafka, Dagster, dbt.

Analytics and Data: funnel and churn analysis, KPI definition, ETL, PostgreSQL, Matomo, MicroStrategy.

Stakeholder and Leadership: cross-functional team leadership, C-level reporting, workshop facilitation, conflict resolution, change management.

Governance: GDPR, Deputy IT Security Officer, identity management, budget ownership.

§ EDUCATION

DIPLOM-WIRTSCHAFTSINGENIEUR (INDUSTRIAL ENGINEERING AND MANAGEMENT, EQUIVALENT TO A MASTER'S DEGREE), TECHNISCHE UNIVERSITÄT BERLIN (TU BERLIN), GERMANY | 10/2006 - 09/2014

- Specialisation: Logistics. Thesis with Siemens AG Energy Service on balancing-power market profitability.
